

ANTOUNIOS BOLAS

Junior Full Stack Developer

Egypt | 01284453186 | antouniosbolas@gmail.com

LinkedIn: <https://linkedin.com/in/antounios-bolas>

GitHub: <https://github.com/antouniosbolas-bot>

SUMMARY

Junior Full Stack Developer with hands-on training and project experience building modern web applications using PHP, Laravel, MySQL, HTML, CSS, JavaScript, jQuery, Bootstrap, APIs, XAMPP, and phpMyAdmin. Developed practical web projects involving authentication, database integration, CRUD operations, and responsive design. Additional background in Manual Testing, API Testing, Database Testing, and Automation Testing provides a quality-focused perspective for identifying potential application issues. Open to jobs, internships, and freelance opportunities.

TECHNICAL SKILLS

Full Stack Web Development: HTML, CSS, JavaScript, jQuery, Bootstrap, PHP, Laravel, APIs, MySQL, XAMPP, phpMyAdmin

Software Testing & QA: Manual Testing, API Testing, Database Testing, Test Case Design, Bug Reporting, Regression Testing, Functional Testing, Software Testing Life Cycle (STLC), Postman, Jira

Test Automation: Selenium, Java, TestNG, WebDriverManager, Cucumber, Page Object Model (POM)

PROJECTS

NTI Full Stack PHP Pharmacy System

Responsive web application built during Full Stack PHP training, including authentication, database integration, CRUD operations, Bootstrap UI, and a PHP/MySQL backend.

Technologies: HTML, CSS, Bootstrap, JavaScript, PHP, MySQL, XAMPP, Laravel, phpMyAdmin

GitHub: https://github.com/somayamaysara/PHARMACY_LARAVEL.git

- Developed a responsive web application using PHP, MySQL, Bootstrap, and JavaScript.
- Implemented authentication and integrated the application with a MySQL database.

- Built CRUD operations for database-driven application functionality.
- Created a responsive Bootstrap interface supported by a PHP/MySQL backend.

AutomationExercise Testing Project

Automated software testing project focused on testing the AutomationExercise website using Selenium and Java.

Technologies: Java, Selenium, TestNG, WebDriverManager, Cucumber

GitHub: <https://github.com/antouniosbolas-bot/Automation-Exercise.git>

Video Demo: https://lnkd.in/p/eC_KPTVH

- Automated software testing scenarios for the AutomationExercise website.
- Applied Selenium WebDriver with Java, TestNG, and WebDriverManager.
- Used Cucumber and Page Object Model (POM) in test automation training and project work.

NTI Full Stack PHP Egyptian Museum

Static website for the Egyptian Museum, showcasing collections and exhibits with a focus on responsive design and user experience.

Technologies: HTML, CSS, JavaScript, jQuery, PHP

GitHub: <https://github.com/antouniosbolas-bot/Egyptian-Museum.git>

Video Demo: <https://lnkd.in/p/ejdmxQFM>

- Developed a responsive static website focused on user experience and front-end presentation.
- Built web pages using HTML, CSS, JavaScript, jQuery, and PHP.
- Applied responsive web design principles to showcase museum collections and exhibits.

TRAINING & PROFESSIONAL DEVELOPMENT

NTI Full Stack Development Training

120 hours of Full Stack Development training at NTI

Training covered HTML, CSS, JavaScript, jQuery, Bootstrap, PHP, APIs, MySQL, XAMPP, phpMyAdmin, and Laravel. The training culminated in a complete web application.

DEPI Software Testing Training Program

Structured technical training covering core software development and quality-focused practices as part of the Digital Egypt Pioneers Initiative.

Relevant areas included Manual Testing, API Testing, Database Testing, Automation Testing, Java, Selenium, TestNG, Cucumber, Postman, Jira, and MySQL.

ISTQB-related Software Testing Studies

Self-study of foundational software testing principles, terminology, and the Software Testing Life Cycle aligned with ISTQB concepts. This represents study and self-learning, not an ISTQB certification.

Selenium Automation Training

Hands-on training in building automated test scripts with Selenium WebDriver, TestNG, and WebDriverManager.

CERTIFICATIONS

- **telc Deutsch B2** — German language proficiency certificate, level B2
- **Software Testing / QA Certification** — Certification covering software testing fundamentals and QA methodology (DEPI)
- **DEPI English Certification** — English language proficiency certification at the intermediate level (DEPI)
- **NTI Full Stack Development Training** — Completion certificate from NTI Full Stack Development training

SOFT SKILLS

Problem Solving, Clear Communication, Team Collaboration, Adaptability, Accountability, Curiosity, Professional Attitude, Ownership Mindset, Attention to Quality

LANGUAGES

Arabic

English

German — B2

ATS OPTIMIZATION NOTES

- Positions **Junior Full Stack Developer** as the primary career direction, with Junior PHP Developer and web development opportunities naturally supported by the content.
- Presents Software Testing, QA, API Testing, Database Testing, and Test Automation as additional technical strengths rather than the primary professional identity.
- Uses a clean, one-column, ATS-friendly structure with standard headings and searchable technical keywords.
- Includes only information stated in the supplied portfolio source and the phone number provided separately.
- Avoids invented employment history, job titles, years of experience, metrics, grades, university details, and unsupported achievements.
- Describes the Egyptian Museum project accurately as a static website rather than a full backend application.
- Excludes the non-public localhost demo and does not describe ISTQB-related studies as an ISTQB certification.
